PROFESSIONAL SUMMARY

10 years of experience in software development, specializing in Python, Java, and Go. Proficient in cloud technologies and DevOps practices. Strong problem-solving skills and a proven track record of delivering high-quality software solutions.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

ABC Company, Inc. | 2020-03 – Present

- Led a team of 15 developers in the development of a new microservices architecture.
- Optimized application performance, reducing response times by 80% (from 2s to 300ms).
- Designed and implemented a RESTful API serving over 5000+ users.
- Implemented DevOps practices, including CI/CD pipelines, reducing deployment time by 10%.
- Improved system reliability, achieving a 99.9% uptime.

Software Engineer

DEF Solutions, Inc. | 2016-07 – 2020-02

- Developed and maintained a web application with a QPS of 5000+.
- Collaborated with the product team to define requirements and design solutions.
- Utilized Python + Django for backend development, achieving a 40% improvement in efficiency.
- Optimized database queries using SQL, reducing execution time by 50%.
- Implemented caching mechanisms, improving system performance by 30%.

Junior Software Engineer

GHI Systems, Inc. | 2013-07 – 2016-06

- Assisted in the development and testing of new software features.
- Developed RESTful APIs using Java + Spring Boot, achieving a 200ms response time.
- Implemented Redis for caching, improving system performance by 90%.
- Participated in code reviews and team meetings.

EDUCATION

Bachelor's Degree in Computer Science

University of Technology | 2013-06

- GPA: 3.8/4.0
- Relevant coursework: Data Structures, Algorithms, Operating Systems.
- ACM-ICPC Regional Contest Participant.

SKILLS

Languages: Python, Java, Go, JavaScript, SQL
